Summary

Final-year IT student (SGPA: 9.69) with hands-on experience in data analytics, Power BI dashboards, and AI-powered applications. Demonstrates strong problem-solving abilities, attention to detail, and effective communication of technical concepts. A quick learner with a collaborative approach, focused on building user-centric and impactful solutions.

EDUCATION

Bharati Vidyapeeth's College of Engineering for Women, Pune

Bachelor of Engineering in Information Technology

Current SGPA: 9.69

Pune, India

2022-2026

EXPERIENCE

Data Analyst Intern

Diamond Headquarters Private Limited, Pune

Jan 2025 – July 2025

(On-Site)

- Built Power BI dashboards using Azure PostgreSQL to track customer behavior by segment.
- Optimized queries and Power Query to reduce load time by 30% and enable real-time refresh.
- Analyzed 1000+ profiles to deliver KPIs like Purchase Frequency and Ring Style Preferences.
- Tools: Power BI, PostgreSQL, pgAdmin 4, Microsoft Azure, Microsoft Excel

Software Development Intern

NICE Internship Program

Feb 2025 – June 2025

(Remote)

- Built a query-level monitoring system in Snowflake using Microsoft Presidio to detect and mask PII, reducing manual checks by 80%.
- Automated INSERT/UPDATE masking and implemented audit trails with role-based access, improving compliance speed by 40%.
- Tools: Snowflake, Microsoft Presidio, Python, SQL

PROJECTS

Customer Insights Dashboards

- Developed a Power BI dashboard to analyze customer behavior by demographics and preferences.
- Connected to PostgreSQL on Azure, performed data cleaning and modeling using Power Query and DAX.
- Delivered KPIs like Top Products, Preference Match Rate, and Algorithm Accuracy for targeted marketing.
- Technologies: Power BI, PostgreSQL, Azure, Power Query, DAX, pgAdmin 4

RingExpert – AI Chatbot for Rings & I

- Built and deployed a live AI-powered Q&A chatbot on the company's Shopify website to automate customer queries.
- Integrated Azure OpenAI with a responsive HTML/CSS/JavaScript frontend.
- Enhanced customer support by implementing predefined prompts and intelligent follow-up suggestions, improving engagement and query resolution speed.
- Technologies: Azure OpenAI, REST API, NLP, JavaScript, HTML, CSS, Shopify, Cloud

Student Registration System

- A desktop application built using Java and AWT for managing student records, including adding, updating, and deleting details. Integrated with MySQL for secure data storage and retrieval.
- Technologies: Java, AWT, MySQL, JDBC, NetBeans

TECHNICAL SKILLS

- Programming Languages: Java, SQL
- Frameworks & Libraries: AWT, Swing
- Tools & IDEs: Power BI, Excel, PgAdmin 4, NetBeans
- Databases: MySQL, PostgreSQL, Snowflake

CERTIFICATIONS

- Java Programming Certificate
- Power BI & Excel | Bharat Soft Solutions [Certificate](#)

CO-CURRICULAR ACTIVITIES

- Student at **Katalyst India**, completed 350+ hours of technical and career development training.
- Secured 2nd Rank at my college in 5th semester with 9.67 CGPA.
- 3rd Prize, Mini Engineering Project – Katalyst Tech-Fest 2025.
